WORLD FINALS

The dB Drag Racing and Bass Race World Finals is less than one month away and preparations are well under way for another successful event. The World Finals will be held in the following 5 locations this year:

- Indianapolis, IN
- Laughlin, NV (AKA Fort Mojave, AZ)
- Montichiari, Italy
- Hamburg, Germany
- Bar Le Duc, France

Earlier this season, Australia was scheduled as one of the host locations, unfortunately there were not enough competitors that qualified to warrant this location. The Aussies are working hard to make it for next year. Additionally, the Norwegians are co-locating with the Germans to make the German location a larger venue.

There are several important dates that are coming up for the World Finals locations in the U.S. Please keep these in mind:

Don't Forget!
points cut-off
and
membership
deadline
is this week...
Sunday, Sept 21

Wednesday, September 24 - Hotel Cut-off

Please make your hotel reservations by Sept 24 in order to receive the discounted rate. We have extended the group rate in Indy to include Sunday night. A few people contacted us requesting this, so this has been arranged.

Tuesday, September 30 - Entry Fees

All dB Drag Racing and Bass Race World Finalists must have payment and registration forms turned in by September 30. You can pay for your entry fees via PayPal (with your credit card), cashier's check or money order.

Friday, October 10 - Move-In

All vehicles and exhibitors must move in the buildings on Friday, Oct 10. There is a mandatory competitor meeting at 6pm. Please make sure that a representative from each competition team attends this meeting.

Sunday, October 12 - Move-Out

At the conclusion of the event, all cars and exhibitors will need to be moved out of the facilities. The buildings must be empty by Sunday evening as our contract is over on Sunday.

Prize Money
Awarded
(as of 9/9/08)

When you hear the name "The Big Oki", you have to "Think Big". Michael Müller, a.k.a. Oki, is a die hard dB Drag and Bass Race competitor who has attended the dB Drag World Finals multiple times. He also holds some international titles as well.

In addition to being a competitor, Oki has produced several car stereo events throughout the years. For the past 6 years, Oki has hosted the successful "Mammoth Üüüüh!!! Event which includes both a Sound Quality and SPL Competition.

Over the years this event has grown to be a really big car stereo fair. 2008 was no exception, it became bigger than ever! All in all, 250 competitors were counted in all 5 provided formats, including AYA Sound Quality. Oki always brings SQ and SPL together, so that the "two worlds" merge into each other. Oki, along with his main Sponsor, ACR (www.acr.ch) and the private Austrian Team GCL (www.gcl.at), provided a tremendous amount of trophies weighing almost 1000 pounds! Every SPL competitor walked away with something shiny in their hands.

Throughout the day about 1000 people visited the event in Limeshain, Oki's hometown. 400 cars were estimated in attendance. The atmosphere was very good and the weather was hot. One sound quality judge had to listen

to 14 cars that day. CRAZY! The dB Drag and Bass Race lanes were full the whole day where people talked and visited with each other while waiting for their turn to compete. Dennis Hessberger was the head judge and had some help from other well known judges in Germany. Over 350 measurements were taken during qualification and elimination rounds. What a blast it was.

Oki's mother was the boss in the kitchen and provided all visitors with food, drinks and coffee with cake. Outside, at Johnny's BBQ, the people were able to order authentic American burgers, spare ribs, BBQ chicken and hot dogs. Johnny is an American native and for the past 3 years he has been the "Chef" at Oki's big summer event.

With all of the activities, the event resembled a family reunion.

The competition itself ran very smooth. Superstary from Belgium was the loudest of the day with his yellow Extreme 2 car at 171.3dB. Competitors

came from a few countries and made this event international. Some teams came from Austria, Belgium and France. A competitor from Denmark, Jan Falk, had the furthest trip with 850km(530mi) one way! He got a nice trophy for that, besides his certified score for Bass Race. A lot of people had long trips, up to 700km (440mi) one way with trailers. Hats off to all of those who has such a far drive!

In conclusion, this event ended with lots of happy faces and one very tired Big Oki. He is already thinking about another big event next year, if sponsors and helping hands chime in again. With the “spirit of competition,” there should be no problem. This event has stirred attention in German car audio magazines. They have been following Oki’s activities which is helping to inform the public on “the World of dB Drag Racing”.

Üüühh!!!
Michael Müller
“The Big Oki”

The trophy awards took place exactly at the scheduled time of 8 PM. A great achievement was made of all helpers, judges and competitors for such a big one day event. The ceremony took forever though, with 250 names being mentioned, and everybody receiving a trophy. The biggest trophies for dB Drag were 71” high. Several special recognitions were given out: “Strongest man of the day”, “Chick of the day”, “longest distance traveled” and “Team of the day” went to Team GCL, for all the help with the trophies and also the nice dB Drag rig that gave the event a more professional look.

Corey Jacobson - WI

I have to thank Eric from the Radio Doctor of Madison for the chance to compete professionally. He and his staff gave me the power and equipment to get as far as I have. Matt Pletcher helped me with the build in my 1995 Plymouth Voyager. I started competing about 9 years ago in Usaci and then graduated 2 years ago to dB Drag. I received 4th place at Usaci finals 2X and got 2nd to Scottie Johnson. I had the pleasure of competing in Louisville 2 years ago and getting 5th in dB Drag World Finals. I currently have 2 vehicles I am running this year. An Acura Integra with (8) 10s T3 TSS's with (4) Memphis 4kws and then a Voyager with (6) Memphis mojo M3s quad 1s and (12) Memphis mojo 4kws . Both are powered by Kinetik batteries. The acura has (8) 16 volt 3 posts and the voyager has (26) 3 post Kinetik batteries.

I have worked at Wal-mart for about 12 years and love my job with the customers and the associates. I work for one of the best companies in the world. I have 2 main hobbies, car audio and my 150 gallon saltwater reef aquarium. I own 3 dogs (Rotweiler, Pittbull, and a black Pug) and my cats. I've been with my girlfriend Tara for over 10 years and she has supported me through the toughest times with car audio. I also have an 11 year old child named Zachary.

I have the greatest Teammates in this car audio scene. Sound-Mekanix of WI has been behind me for multiple years and without them I wouldn't have the opportunity to be the competitor that I am . My thanks to the people that have helped me get to be the person I am today, my parents and my family. RIP to my recently passed Grandma Joyce, she is and will continue to be my greatest inspiration to be a better person. Eric and his Staff from the Radio Doctor, Gary from Memphis Car Audio, Gus from Ohio Generator, Kinetik for the greatest batteries in the world, and last but not least Matt Pletcher(memphisspl) for being a great teammate and allowing me the opportunity years ago to compete on a higher level than I have ever planned!

To all the competitors around the World, Keep it LOUD!

Corey

Team Bassick Nyman - CA

I started dB Drag Racing and Bass Race in 2006 and fell In love with sport. In the 2007 season I came in 9th place in the spl max cup. I placed 2nd in the points race on the west coast in 2007. I only missed 3 shows in 2007. At world finals I placed 5th in dB Drag Racing and 5th in Bass Race. I feel this was not bad for my first year at World Finals. For the 2008 season, I am the points leader on the west coast. In the spl max cup, I am in 4th place for the single cup and my team mate and I are 2nd place for the team cup. Our team name is "b slap yo mama". I hope to do well in the singles and the team cup. In 2008, I have only missed 3 shows in my region. I have a loving family that stands by me to make all this happen. I want to win every thing I can. For shows in Grass Valley and Auburn I am trying to win the points trophy for the most points in Bass Race. Last but not least, I would like to win at world finals This has been the best year of my life. Thank you for having this sport.

Brian

Equipment used in installation:

- Source Unit - JVC
- Amplifiers - Soundstream
- Woofers - JBL Consumer Products
- Component Speakers - Pioneer
- Signal Processor - Maxxsonics
- Battery- Kinetik
- Capacitor - Kinetik
